### Background

Over their 45+ year history, Combs Produce has become one of the largest produce distributors in the Southwest region, with service centers in Dallas and Oklahoma City.

Combs has developed strong and enduring business relationships all across the U.S. Their success is attributed to their so-called "extended family" – those individuals who tirelessly dedicate their service and talents to maintaining the integrity of Combs and making it one of the most resilient resources in the produce industry.

When Combs was incorporated in 1964, the company's core business was tomato repacking. As the business has evolved, Combs continues to provide the highest quality produce while also integrating other value-added services. Rather than simply providing customers with a commodity, Combs strives to meet and exceed each company's unique product needs.

Combs Produce is a *Primus Platinum* member.
