

Top Tomato Company
Pompano Beach, FL

Top Tomato Company

PROFILE

Top Tomato can guarantee premium quality in the produce we deliver regardless of the time of the year or the current weather patterns because we source from a vast array of growers located across the fertile regions of the U.S. Mexico, Canada and South America. We believe consistency is difficult to deliver if you rely on only one source of grower or growing region. Our sourcing flexibility gives us the opportunity to customize customers' requests on color, size, flavor and consistent levels of freshness. Our customers have come to rely on our commitment, dedication to value-added services, trust and reliability.

Over twenty years of dedicated work in the tomato repacking and wholesale trade has established Top Tomato as the name to trust for top quality tomatoes. Key to our success in the tomato business is the reality that the human touch is irreplaceable to any "machine". We manually pack all of our produce items and select the very best for our customers.

PRODUCE

Varieties of tomatoes and methods of production include Roma, Cherry, Grape, Gassed, Vine Ripe, On the Vine, Yellow and Green. We also offer cucumbers, squash, green peppers, yellow and red onions, red and yellow potatoes, and eggplant.

SAFETY

Member of United Fresh Fruit & Vegetable Association, Florida Tomato Committee, PMA Blue Book, United Way, Diabetes Research Institute. Food safety assurance by Hazard Analysis Critical Control Point (HACCP) system. Certified by Primus Labs Audit, USDA Federal-State Audit and Tomato Re-packer.

FACILITY AND TRANSPORTATION

We utilize custom-built systems to efficiently receive pallets in bulk, break them down, put them away, and then ship them out to customers. Recognized for operational excellence, we continue to seek improvement through training, technology, management, and an attitude toward perfection. Our new fleet of refrigerated and air-cushioned trucks safely and efficiently transports fresh produce.
